

INTER-COMPANY TRAINING · COURSE CONTENT

WEBDEV for WINDEV developers

WEBDEV Training · 3 days (21 h)

Prerequisites (Who is this training course intended for?)

Target audience: developers who master WINDEV and wish to build their skills in WEBDEV (accelerated equivalent of WEBDEV Fundamentals 1+2 in 3 days).

Prerequisite: be an experienced WINDEV user or have attended the WINDEV Fundamentals 2 training course.

This is the accelerated 3-day equivalent of the "WEBDEV Fundamentals 1+2" training course, intended for developers who master WINDEV.

The WEBDEV "Advanced" training courses are ideal complements to this training course.

Take advantage of exceptional pricing offers by attending the WEBDEV "WINDEV developer course - 5 days" training. After attending this training course, you will master the basics for developing Internet and Extranet sites and applications that manage data and processes.

September 2026

Detailed Program

The instructor uses the course materials, which are tailored to the training objectives (the materials are provided at the beginning of the course). This course support material is divided into subjects.

All of these methods and exercises will help you put into practice what you have learned, when you return to your company.

Each subject is based on 3 axes:

Axis 1

The trainer gives a theoretical presentation of the topic, followed by any questions and answers.

Axis 2

Practical application exercise (individual work) to be completed within a set time limit. The trainer remains available to help and provide additional explanations.

Axis 3

Correction of the exercise, with all necessary explanations and any questions and answers. The trainer makes sure that each trainee has fully understood the exercise before continuing.

WEBDEV for WINDEV developers

3 days (21 hours)

OBJECTIVES

- Create a dynamic site (topics 1, 2)
- Build "mobile-friendly" sites (topic 2)

Teaching, technical and supervisory resources

In-person training

During the training, you will be provided with a suitable computer (one per trainee) and a software license.

PCSoft also provides all the supplies:

- a USB flash drive to save your exercises
- a notebook
- a pen
- a PCSoft-branded case to store everything

Not to mention lunch and coffee breaks, which are also included.

Learn more about the in-person format

Online Training

During the training, you will be in constant contact with the trainer via the GoTo Meeting (©) software, which allows you to share your screen and the trainer's screen. You will connect to the workstations using RustDesk (©); the trainer will provide you with the login information on the first day of the training.

You can also interact with the other participants to foster a friendly atmosphere during the training and promote productive technical discussions.

The course materials (PDF format) are sent to you with the joining instructions before the training begins.

Rules and Regulations	Please review the rules and regulations for trainees at the PCSoft training center. Rules and Regulations Procedure for the Prevention and Handling of Violence, Harassment, and Discrimination

Methods for monitoring the execution of the training session

At the end of the training course, participants' mastery of the skills is assessed through a multiple-choice test. Non-certification, non-degree program—certificate of completion.

Prices and VAT

It all depends on where you live:

- Mainland France: The training is subject to French VAT (20% as of 01/01/2014).
- Overseas Departments (DOM): The VAT rate (known as "octroi de mer") varies by DOM (Martinique, Guadeloupe, and Réunion: 8.5%; French Guiana: VAT-exempt).
- COM and POM: excluding tax.
- EEC: Invoicing excluding tax (provide the European VAT number).
- Other countries (outside the EEC): excluding tax.

Accessibility

PCSoft is particularly committed to including people with disabilities in its training programs.

Contact the disability liaison officer
