

INTER-COMPANY TRAINING · COURSE CONTENT

WINDEV Fundamentals 1

WINDEV Training · 2 days (14 h)

Prerequisites (Who is this training course intended for?)

Target audience: developers who want to discover WINDEV. This training course is intended for new WINDEV users and provides an overview of the product's features.

Prerequisite: be comfortable with the Windows environment and have basic programming knowledge (algorithmic logic, variables, conditions). No prior knowledge of WINDEV is required.

The "Fundamentals 2" training course is an ideal complement to this course.

Take advantage of exceptional pricing by taking the "Fundamentals course - 5 days" training. After completing these 2 training courses, you will master the basics of developing applications with WINDEV.

Detailed Program

The instructor uses the course materials, which are tailored to the training objectives (the materials are provided at the beginning of the course). This course support material is divided into subjects.

All of these methods and exercises will help you put into practice what you have learned, when you return to your company.

Each subject is based on 3 axes:

Axis 1

The trainer gives a theoretical presentation of the topic, followed by any questions and answers.

Axis 2

Practical application exercise (individual work) to be completed within a set time limit. The trainer remains available to help and provide additional explanations.

Axis 3

Correction of the exercise, with all necessary explanations and any questions and answers. The trainer makes sure that each trainee has fully understood the exercise before continuing.

Fundamentals 1

2 days (14 hours)

OBJECTIVES

- Become familiar with the development environment (topics 1, 2, 3, 5)
- Master the basic concepts and the main editors (topics 1, 2, 3, 4, 5)
- Design and test your application (topics 2, 3, 4)
- Define your database (topic 2)
- Use the standard WLangage functions (topic 4)
- Create ergonomic windows that follow Windows standards (topic 3)
- Create reports (reporting) (topic 5)

CONTENT

Topic 1. Introduction to WINDEV

45 min

- Managing the lifecycle of your developments
- Mastering the basic concepts and the main editors
- Using L5G

Topic 2. The database

2 h

- The data model editor
- The HFSQL database: description of data files and links (referential integrity)
- Using a third-party database
- Importing and converting an external database
- Simple queries
- Using H*() functions to handle HFSQL databases
- Implementing GDPR

Topic 3. UI: User interface design (Human/Machine Interface)

4 h 30

- The window editor
- The style guide
- RAD (automatic application generation)
- The project, windows: ergonomics, system menu, title bar, styles
- Drop-down menus
- Table controls and file-based looper controls
- Creating a window template

Topic 4. Programming

5 h

- The code editor
- Declaring variables
- WLangage: operators and basic functions
- Self-populating combo boxes
- Basic debugger concepts
- Object properties
- Procedures and functions (with or without parameters)
- Reactive procedures
- Tools: WDMAP, the HFSQL Control Center, ...

Topic 5. Printing

45 min

- The report editor
- The different creation modes: labels, form, table ...
- The different types of report blocks
- Print settings (PDF, HTML,..., paper format, margins, printer drivers,...)
- Calling a report from the UI & UX

Topic 6. Installation

1 h

- Implementing the user groupware
- Creating the executable
- Creating the setup procedure
- Deploying on the client computer

Topic 7. The documentation generator

5 min

- The summary documentation
- The full documentation
- The code documentation
- The generic vocabulary

Teaching, technical and supervisory resources

In-person training

During the training, you will be provided with a suitable computer (one per trainee) and a software license.

PCSoft also provides all the supplies:

- a USB flash drive to save your exercises
- a notebook
- a pen
- a PCSoft-branded case to store everything

Not to mention lunch and coffee breaks, which are also included.

Learn more about the in-person format

Online Training

During the training, you will be in constant contact with the trainer via the GoTo Meeting (©) software, which allows you to share your screen and the trainer's screen. You will connect to the workstations using RustDesk (©); the trainer will provide you with the login information on the first day of the training.

You can also interact with the other participants to foster a friendly atmosphere during the training and promote productive technical discussions.

The course materials (PDF format) are sent to you with the joining instructions before the training begins.

Arrangements

Price	The price includes the course materials. The price is guaranteed for the stated period.
Financing	skills development plan, OPCO, direct funding.
Cancellation or postponement	Requests must be made in writing. Free of charge up to 3 weeks before the start of the session. After that, 50% of the price remains due, and 100% within the 7 days before the session. Full terms: Special Terms for Services
Equipment	In-person, each trainee is provided with a workstation tailored to the subject matter of this training.
Schedules	From 9:00 a.m. to 12:30 p.m. and from 1:30 p.m. to 5:00 p.m. (for a total of 7 hours per day).
General conditions	PCSoft's general terms and conditions and specific training terms and conditions apply. General Terms and Conditions Special Terms and Conditions of Service
Rules and Regulations	Please review the rules and regulations for trainees at the PCSoft training center. Rules and Regulations Procedure for the Prevention and Handling of Violence, Harassment, and Discrimination

Methods for monitoring the execution of the training session

At the end of the training course, participants' mastery of the skills is assessed through a multiple-choice test. Non-certification, non-degree program—certificate of completion.

Prices and VAT

It all depends on where you live:

- Mainland France: The training is subject to French VAT (20% as of 01/01/2014).
- Overseas Departments (DOM): The VAT rate (known as "octroi de mer") varies by DOM (Martinique, Guadeloupe, and Réunion: 8.5%; French Guiana: VAT-exempt).
- COM and POM: excluding tax.
- EEC: Invoicing excluding tax (provide the European VAT number).
- Other countries (outside the EEC): excluding tax.

Accessibility

PCSoft is particularly committed to including people with disabilities in its training programs.
